

AVOID A LIFE CYCLE OF PROBLEMS

THE BEST BUY IS
HOT MIX ASPHALT
ALL THE TIME!

With ever increasing congestion and with businesses wanting continuous access, specifiers are challenged to build and reconstruct roadways that are cost effective and long lasting. With new mixture design technologies and improved quality control practices, the service life of HOT MIX ASPHALT (HMA) pavement is the better pavement. As a result, the low cost and rapid construction benefits of HMA pavements can be combined with more durable, quiet, rut resisting pavements to provide lower life cycle costs.

HOT MIX ASPHALT PAVEMENTS: *A long term construction solution for Minnesota.*

Rut Resistant Mixes

New HMA technology with rut resistant, crushed aggregate provides stone-on-stone matrix with aggregate interlock.
